Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest a system having a nozzle with a flow channel; a liquid reservoir in fluid communication with the nozzle flow channel, the reservoir adapted to contain a liquid material capable of forming a mold, the liquid being pressurized in a pressurized reservoir and inject from the reservoir through a conduit ending in the nozzle flow channel; means for flowing a high temperature atomizing gas through the nozzle flow channel from the inlet end to the outlet end at a pressure range of 20 psia to 30 psia to atomize the liquid injected into the flow channel into a plume of atomized droplets; a chamber adapted to contain a quench gas having a controlled temperature and composition for increasing in-flight convention cooling of the atomized droplets and means for directing and depositing droplets onto a pattern to form the mold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
